Electronic Prescribing System (EPS)

Our website has been updated recently to advertise the EPS. This is a service we provide whereby your prescription goes from the surgery once you have requested the items automatically through to a chemist of your choice. There are also external companies that will order your prescriptions for you on a weekly/monthly basis and some will even deliver the items to your home if you are elderly or housebound. If you require any more information please ask at reception.

Upcoming Survey.

We have to carry out a yearly survey at Holland park Surgery. Our PRG group will be handing out the surveys to patients on our flu clinic days which will be on 22nd and 25th September 2017. Your co-operation in completing these surveys will be greatly appreciated as we can gather lots of information from the feedback. The surveys will also be available on reception from beginning of September, please feel free to take one.

Awareness Day Update

On the awareness day we held back in May 2017 there were a few of our patients that took up an offer to use some of the screening services that were available on the day. These included (AAA) Aortic screening for men aged over 65 and it had a very positive outcome. There was also health checks including height, weight, smoking and lots of people had some very informative literature.

Dr Sukhneet Randhawa

We are pleased to announce that Dr Randhawa has started with us as a Trainee Doctor and will be working with us for the next 6 months.

Next PRG meeting

The next PRG Group meeting will be held at 12 noon on Thursday 19th October 2017.

Profile of Clinical Pharmacist Jazvinder Dhillon

Personal profile

Hello, my name is Jaz, I joined Umbrella Medical in September 2016, working at Holland Park and Mossley Fields Surgeries as a Clinical Pharmacist. I was born and grew up in Walsall and now live in Wolverhampton with my Wife and two children. I studied in Liverpool and qualified as a Pharmacist in 1998.

I have worked in a variety of settings including Community, Hospital, Educational. However, predominately the majority of my time has been in the General practice setting where much of my further training has been undertaken.

I have always had a keen interest in sport, play as much as i can and in my spare time help run a local non league football club. I have been lucky enough to combine my professional role with my love for Sport over the years. I worked for two weeks in the Athletes Village Polyclinic at London Olympics 2012, and also had the opportunity to work at Baku, Azerbaijan in 2015 for the 1st European Games, all being well i should be heading off to Ashgabad, Turkmenistan in September 2017 for the Asian Games.

My main responsibilities are to ensure that the medicines we prescribe are safe, to best practice and providing the best outcomes for our patients.

I shall also be seeing patients for medication reviews, helping the GPs and Nurses in the management of long term conditions such as Diabetes, Asthma, Minor illness & ailments and other conditions as well as prescribe too.

I am here to help and support our patients with any medication related queries and look forward to meeting all at Holland Park.
